

Nasal cannulae

A range of products for all patient groups

Oxygen and Aerosol Therapy • Nasal Cannulae

Nasal cannula

Conventional nasal cannula

A range of products for adult, paediatric and neonates are available with a wide selection of prong shapes to suit patient requirements. All oxygen tubing in the range is manufactured in a 'multi-channel' design, which permits oxygen flow even if the tubing is kinked.

Also available in Satin

Cannula made from Intersurgical's soft satin material.

Prong shape

The following prong shapes are available:

Curved prongs:

Flared prongs:

Curved and Flared prongs

Straight Prongs

Curved prongs with Intersurgical EarGuards

Intersurgical EarGuard™

The Intersurgical EarGuard option includes soft silicone foam cushions, which may reduce the risk of trauma to the patient's ears.

Non-phthalate nasal cannula

All of the nasal cannula featured in this information sheet are now manufactured using non-phthalate materials to address DEHP exposure concerns.

Multi-Channel oxygen tubing

Allows oxygen to continue to flow if the tubing becomes kinked

Non-slip toggle

Enables user to adjust for best possible fit

Non-phthalate

Addresses DEHP exposure concerns

Clear material

Unobtrusive

Over-ear design

Secure positioning

(Intersurgical EarGuard™ option available for added comfort)

Soft prongs

Minimise irritation

Location saddle

Assists in the optimum positioning of the prongs
